60 round playing cards

each featuring a category side and a letters side

1 round overview card

1 Game rule

Object of the game

Be the player with the most cards at the end of the game by shouting out the right words first.

Setup

Shuffle the deck of cards and place it in the centre of the table, category side up.
Place the overview card next to the deck.

The Game

Stadt Land Flip is played simultaneously by all players. The youngest player starts the game by flipping the top card from the deck without seeing the letters and places it instantly (so that all players see the card at once) beside the deck, letters side up.

Guessing words – Quickly find a word matching the category from the deck **1** starting with the letter in the same colour from the flipped over card beside the deck. **2** The first player to shout out a matching word, wins this round and places the card in front of him/her.

Wichtig! Der Begriff ist nur korrekt, wenn dieser zur Kategorie passt und mit dem entsprechenden Buchstaben beginnt.

Just one word – For each card, only the players first shouted out word counts. The next card is always flipped over by the player who gave the last (right or wrong) answer. The game continues into the next round by flipping over a new card.

Back into the deck – If a wrong word or a word from the last round is shouted out, this player has to place one of his/her won cards and the currently open letter side up card underneath the deck. If the player has not won any cards yet, only the open card is placed underneath the deck. If none of the players find a matching word, this card is also placed underneath the deck.

End of the game

The game ends when only a single card from the deck in the centre of the table is left.

Winning the game

The winner of the game is the player with the most cards at the end of the game. The remaining single card on the table is not counted.
